Dissecting The Novel With June Converse
Delivery Options: Online (Instructor-led) and Classroom

Course Description
Instructor: June Converse

Students purchase their own book and DO NOT read ahead. Instructor will give instructions on how to read each week.

What makes a bestseller a bestseller? Is it the plot or the characters or some mystical combination? Is there some subliminal expectation readers have that bestsellers exploit? Does it have to do with progressive escalation or our desire to escape from reality. Maybe it’s schadenfreude? In this class, we read one bestselling novel and try to find that mystical power. We look at plot and arcs and marketing. We put on the hat of author, character, reader and publisher. It’s a book club on steroids. And, like magic, what you learn applies to all stories (TV, movies, books) and makes every experience that much deeper. Readers, writers and any story love will enjoy this class.

Ever since the people of Britain became Christians, Christmas has been one of the most important, anticipated times of the year. In this session we will look at how the British royals have celebrated the Christmas holidays, beginning with the Middle Ages down to contemporary times. Until Henry VIII separated the English Church from the Catholic one, Christmas was a 12-day holiday from December 25 through January 6. In more recent times the holiday has evolved into a much shorter but equally festive event. Christmas as it is observed today largely evolved in the 19th century during Queen Victoria's long reign. Present day royal traditions are a continuation of the Victorian ones with others added in the 20th century. If you love the Christmas holidays, for religious or secular reasons, come join us to see how the British royals celebrated, both in the past and today.

Over the eight weeks of the course, we'll journey together into the world of story, exploring a facet of your intelligence that you may never have considered—Story Intelligence. As far as we can tell, “story” has been around as long as humans have walked this earth. Our evolution is intimately intertwined with story. In a stair-step fashion, our brains have evolved to be powerful simulation machines, attuned to using the structure of story to make sense of our world, learn, envision possibilities, and even heal old psychic and spiritual wounds. Did our brains evolve to the point that they invented stories, or did telling stories impact how our brains grew and changed? ....

**Dates:** 10/20/2022 - 12/27/2022

**Time:** 10:00 AM - 1:00 PM Zoom

I have long maintained, and continue to believe, that my generation, and my nation, suffers from a pervasive and malignant cynicism. But in her best-selling book “Bright-Sided: How Positive Thinking is Undermining America,” Barbara Ehrenreich makes a compelling case that residing on the other end of the pessimism-optimism continuum is no less dangerous. As we examine her critique of the medical establishment, big business, why “God wants to be rich,” the “science” of positive psychology/magical thinking, etc., I encourage all of you to share your thoughts on what kind of realistic hope might be warranted at this perilous point in human history.

How the United States became and still is the strongest defender and promoter of “Christian Values”. From the Puritan, and many other, emigrants denigrating and persecuting the “Native Americans”, through Jonathan Edwards’ fire-breathing sermons to “sinners in the hands of an angry God”, such aberrant fantasies as Mormonism, Millerites, Shakers, Christian Science, Swedeborgians & the Oneida Community, on to 20th-21st century evangelists and their eventual cooption into politics, the country whose Founders attempted to separate Church & State has resolutely sought to tear down that wall. Will the wall hold? Will Christian Nationalism prevail? What are the alternatives?

Before she passed away in 1974, Felicia Bornstein Lubliner wrote about her internment in Polish ghettos and two Nazi concentration camps, Auschwitz and Gross-Rosen. Her powerful stories have recently been published by her son, Irv Lubliner, an emeritus Southern Oregon University professor and OLLI instructor. He will share excerpts from Only Hope: A Survivors Stories of the Holocaust, shedding light on his mother’s experiences and indomitable spirit, as well as his experience as a child of Holocaust survivors and his process in bringing the book to fruition. This is followed by a Q & A session.

Ever since the people of Britain became Christians, Christmas has been one of the most important, anticipated times of the year. In this session we will look at how the British royals have celebrated the Christmas holidays, beginning with the Middle Ages down to contemporary times. Until Henry VIII separated the English Church from the Catholic one, Christmas was a 12-day holiday from December 25 through January 6. In more recent times the holiday has evolved into a much shorter but equally festive event. Christmas as it is observed today largely evolved in the 19th century during Queen Victoria’s long reign. Present day royal traditions are a continuation of the Victorian ones with others added in the 20th century. If you love the Christmas holidays, for religious or secular reasons, come join us to see how the British royals celebrated, both in the past and today.
