Time: 10:00 AM - 12:00 PM **Method:** Classroom

What makes a bestseller a bestseller? Is it the plot or the characters or some mystical combination? Is there some subliminal expectation readers have that bestsellers exploit? Does it have to do with progressive escalation or our desire to escape from reality. Maybe it's schadenfreude? In this class, we read a bestselling novel and try to find that mystical power. We look at plot and arcs and marketing. We put on the hat of author, character, reader, and publisher. It's a book club on steroids. And, like magic, what you learn applies to all stories (TV, movies, books) and makes every experience much deeper. Readers, writers, and anyone who loves stories will enjoy this class. We take SIX weeks to study a master. We peel off the layers one by one to see the depth behind the completed work.

As the instructor, I look forward to freeing your mind to the possibilities of cooking. That means giving you the tools to walk into a market, recognize products that excite you, and create amazing food that's totally of your own making. Meals will never be defined by words like "has to be" or "should be." Rather, I want to give you the gift of "gets to be"! This five-week class will be divided into two parts: Shopping and Making. Our journey begins with the first session, a lecture outlining what to expect, setting the stage for the weeks ahead. Then, every other week, we will meet at markets around the metro area to "go shopping," learning to let the market guide us—from what we want to make to what other dishes could complement the meal. The following week, having purchased our amazing finds, we will cook in the classroom and taste our creations together. A meal is the result of what went into it, and to create high-energy, fearless dinners full of free conversation and exchange, we must use those same qualities when shopping and cooking. Please join me in what I hope will be the start of a lifetime of joyous meals!

In this class, students will be able to understand the main points of a conversation about everyday life, using the basic past tenses. Students will enrich their vocabulary and improve their understanding of the language through the use of videos and audios. Percival Everett's recent best seller "James" is a retelling of the events—with several surprises--of Twain's "The Adventures of Huckleberry Finn"—a book Hemingway refers to as the genesis of American literature--through the runaway slave Jim's point of view. It is a humorous yet darker and more serious journey, revelatory in its harrowing depiction of slavery and racism and in the humor and character of Jim (James). In this class we will read the two novels concurrently and see how the authors and their times create two wonderful and different works of art while traveling the same river. The hero's journey, river journeys in literature, the beauty of nature and the Mississippi, the opinions and satire of the authors, and mankind's enduring foibles will be discussed.

1066: The tumultuous year that changed England forever

Instructor: Peter Campos

Date: 4/10/2025 - 5/1/2025 **DOW:** Thursday

Time: 11:30 AM - 1:00 PM **Method:** Hyflex

1066 was the most significant year in English history. It was during those 12 months that what it meant to be "English" was forever changed. The best known event that year was the Battle of Hastings, when the Normans successfully invaded and defeated the Anglo-Saxons and took control of the country. We will begin by examining what life in England was like leading up to 1066. How did people live? What was the social structure, cultural expression, and religious influence? We then consider the events from January to September, from the death of the King through the successful defeat of a Viking invasion in the north. The Battle of Hastings will occupy our third week, including considering some recent challenges to the established narrative (e.g., where was it fought?). We will end by looking at how England changed forever with the advent of Norman rule: Learn about the Bayeux Tapestry, castle building, the Domesday Book, the increasing power of the Church, and the establishment of feudalism.

Euripides' Alcestis: A Pioneering Literary Psychology

Instructor: Craig Miller

Date: 4/3/2025 - 5/8/2025 **DOW:** Thursday

Time: 11:30 AM - 1:00 PM **Method:** Online

Students will be introduced to Euripides as a craftsman of the unexpected, a "modernist" who colors outside the lines in deeply personal ways for both ancient Greeks and modern audiences.

Students will realize that what was once a predictable myth has become a platform for innovative, searing commentary on human nature, ethics, and societal norms. Euripides transforms the concept of surrogacy—the trading of one life for another—into a profound exploration of familial and trans-generational intimacy, challenging students to reflect on their own value systems and consider what, for whom, and under what circumstances they would self-sacrifice. The dramatist aligns his characters along a continuum of god, demigod, and mortal, illustrating that nothing exists in isolation and that instability breeds further instability. This timeless lesson resonates strongly with contemporary issues, where fragility and interconnectedness are ever-present. Active participation in class discussion will be encouraged, as the instructor aims to engage students in deep reflection and dialogue.
